

SERIOUS STABBING IN VIRGINIA CITY

**Joe Blake, Bartender at California
Brewery Seriously Wounded
by Tony King**

Virginia City, July 8.—As the result of an altercation over the price of a bucket of beer Joe Blake, bartender of the California Brewery is lying in a very precarious condition, the result of several knife stabs at the hands of a half crazed character of that city by the name of Tony King.

King came into the California Brewery at about ten o'clock last night and asked for twenty-five cents worth of beer. After the beer had been drawn he ordered Blake twenty cents for the same. The latter refused to accept the same and King began to abuse him.

A heated argument ensued and Blake was thrown to the floor in a scuffle that ensued and was stabbed a number of times by King with a four inch dirk.

E. Schweiss, owner and proprietor

of the brewery, hearing the noise rushed to the assistance of Blake and after beating King over the head with a cane succeeded in pulling him out of the wounded man. He then gave his attention to Blake who was bleeding profusely from his many wounds. King in the meantime crawled out of the building and hid under the porch. The officers were called, but owing to the darkness were unable to find King and up to this afternoon no trace of him has been found. Blake is in a very precarious condition and the physicians have not moved him from the brewery fearing that the move would cost him his life.

King has had a bad reputation in this city and is a well known offender having been convicted several times of robbery and has served several terms in the city prison.

Blake is one of the popular young men of this city.

DEATH OF DEL LEWIS

This morning the Appeal received a dispatch announcing that Del Lewis, a brother of Irwin Lewis, former editor of the Appeal had been killed in Los Angeles. No particulars were given.

ABLE TO BE OUT

The many friends of Miss Lena Mara are pleased to learn that she is recovering from her sick spell and was able to be driven about the city during the carnival.

CARSONITES MAKE GOOD AT SILVER BOW

There is much activity in the Silver Bow district, and a number of properties are under bond. The group of claims owned by Prince and Millard Quinn of Carson and F. W. Baker of Oakland, the latter a brother-in-law of the two first-named, has been sold to Tonopah people for \$10,000 cash and a block of stock in the company that will be organized. The ground consists of six claims. There is a 6 foot ledge which shows assays running from \$100 to \$600 on the surface, and the indications are that the property will make one of the best mines in the district.

Within the past ten days four or five new leasing companies have gone to work in the district, and reports from those already at work are very encouraging. On the Clifford lease ore running as high as \$600 a ton has been opened up, and the Wills-Day lease has developed a large body of good milling ore, running as high as \$30 a ton.

The 10-stamp mill recently erected between Silver Bow and Bellehelen is being remodeled and a cyanide plant is being added.—Tonopah Miner.

RECOVERING RAPIDLY

Reports from the bedside of Miss Joe Roberts state that the young lady is gaining rapidly and that she is on the rapid road to recovery which is good news to her many friends in this city.

A SEVEN DAY PAPER

The Reno Journal is now published every day in the week. This is the first paper in the state to become a seven day paper and this feat of journalism is bound to be appreciated. The Journal is progressing by leaps and bounds under the new management and is now one of the leading newspapers of the west. It is ably edited and is sparing no expense to give the news.

THE RENO HAMMAM

It is one of the finest Bath Houses in the United States.

The new Hammam baths at Reno are now finished and several of the world's wayfarers have already sought rest within the neatly painted walls inside the big brick building. For here may the prodigal son and the wayward husband dispose of a hold-over or a suddenly acquired sizz, and here may the man of superfluous gas pipe.

Cooley and Galleron have met with numerous setbacks in the construction of the building, and months have been consumed in making small progress. But at last they have prepared one of the best equipped Turkish baths in the United States, which is no exaggeration, for while some others are larger and more elegantly appointed, none are more up-to-date.

In the new bath house are accommodations for forty people. There is a dry and moist sweat room, electrical room, and various other devices for the treatment of patients. There is a reading room, lounging parlor and sideboard. Three good massagers—Cornell, Dalzell and Bodie—are constantly in attendance.

Jack Longhi is one of the attractions of the place. Jack worked in the Winsor and the Albany in Denver for a long time, and afterwards at Burns' baths in San Francisco. Besides his friends in these places Jack knows every man in Reno and many in Carson.

Cornell did all the electrical work on the house and much of the planning was the result of his suggestions.

A ladies department, entirely separate from the men's portion of the building, is being added and will be ready in about a month.

TO TOUR EUROPE

Dr. Berry of Carson City and his wife have gone to San Francisco, from which point they will sail by way of the Orient for Europe.

Dr. and Mrs. Berry will remain away from Nevada for two years, during which time Dr. Berry will study medicine and surgery in the Old World. His wife will devote her time to the development of her musical talents.

Mrs. Berry was conferred a degree of Master of Arts at the last commencement exercises of the University.

REGAINING STRENGTH

A decided change for the better has come in the condition of Miss Carrie Cottrell who has been critically ill for some time and she is now thought to be on the road to recovery. Last evening she was much stronger.

MARTHA I IS PLEASED

With Reception Tendered Her During the Carnival

Dear Sir:—Will you permit me through the columns of your valuable paper to thank the members of Carson Aerie, 1006, F. O. E., for the many courtesies extended to me and my attendants during the recent Eagles' carnival? I wish to assure them that their efforts have been deeply appreciated and I am glad to have made the acquaintance of men of their standing and thoughtfulness. No effort has been spared to make my stay in your city a pleasant one and I shall ever carry with me the memory of an eventual and pleasant sojourn here.

To the prime minister, Mr. J. C. Tranter, I also wish to present my sincere thanks. His unfailing courtesy, his close attention to my comfort and pleasure, his anticipation of every want, and his constant good nature have added greatly to the pleasure of my visit in Carson City and his thoughtfulness will always be remembered with the kindest of feelings.

I wish to thank the proprietors of the Arlington Hotel and all connected therewith for their careful attention and courteous treatment of us while we have been beneath their roof.

The ladies upon the reception committee, Mesdames Roberts, Livingston, Peterson, Van Elten and Wood, will please accept my thanks for their thoughtfulness and kindness, and also to the young ladies, Misses Hofer, Kelly and Culp, who brightened with their decorations the rooms I have occupied while here. I wish to extend my hearty thanks.

The winsome faces and charming manners of my two little pages, Nita Barkley and Bernice Hoopes, will ever be before me and I shall always remember them with happiness and pleasure. The little key bearer, Margaret Regan, and the crown bearer, Dorothy Mackey, will not be forgotten as the years roll along, but will be present in memory's picture in company with those of the pages.

Without particularizing further, let each and everyone who in any way contributed to my pleasure or comfort, feel that this acknowledgment is for him or her personally and that my reign as Queen Martha First has been so filled with brightness and cheer that I addicted my throne with regret, but hope always to return the good will of the people of Carson City.

MARTHA E. ROBERTS.

Action is Postponed Indefinitely

After an extended discussion, the Western Federation of Miners Saturday, in mass meeting at the ball park, voted to indefinitely postpone all action with reference to the employment of watchmen at the mines. These watchmen were employed during the recent tie-up and the question has arisen as to whether the miners should not demand their removal or their affiliation with the federation.

The rank and file of the federation is said to be in sympathy with the efforts of the mine owners and operators to preserve peace and to continue work.

The Industrial association submitted a proposition in writing relative to a permanent grievance committee, but this, together with the proposition of watchmen, went over until a future meeting. The association's communication was read before the meeting and secured close attention. It was the sentiment, however, that the body should wait until the return to Goldfield of the delegates to the W. F. M. meeting in Denver, which adjourned a day or so ago, so that their ideas might be secured. The operators association's proposition follows:

1. We desire to have peace in this camp, and no further labor troubles.

Attorney Pilkington of Wellington is in town.

SUSTAINS DEMURRER

**In Whitaker-Ray Case
And Time to Amend
Complaint is Given**

THE WHITAKER RAY CASE
This morning the case of the Whitaker Ray company vs. the County of Ormside, wherein the plaintiffs sued for some \$2000 due for the sale of furniture to the Public School house, was decided.

The defendants, through District Attorney Roberts demurred to the complaint on the grounds that the school board should be embraced in the complaint with the other defendants. Judge Farrington sustained the demurrer and gave the plaintiffs thirty days to amend complaint.

The court decided that it could not compel the County School Superintendent and other defendants to act after they had used discretionary powers. Also that it was not a suit in equity.

This is a suit for the desks and so far no suit has been brought for the chairs. People are asking why this suit has not been brought as the opera chairs were ordered before the desks.

The contract binds the district and was dated before the desk contract. No bill has yet been presented to the board and the chairs have been in use for nearly a year.

SMALLPOK AT SPARKS

There are two cases of smallpox in Sparks, the victims being a Mrs. Joyce and the little child of Frank Cagwin, an engineer running between Mina and Sparks, who was a former resident of this city. Both houses have been placed under quarantine and there is little fear of the disease spreading.

The Journal is trying to dislodge Colonel Maxon as boss of the Reno school board. It will be a pretty fight in a few weeks when things get warmed up right.

GOLDFIELD MEETS DEFEAT

Goldfield lost both games against the Reno league team at the latter place Saturday and Sunday.

The Reno boys walked right away from them from the start and there was nothing doing with the high graders and they went to defeat.

In speaking of the game this morning's Journal expresses the opinion that too much hospitality here during the celebration was the cause of the Goldfield team not being able to play up to their usual standard.

PARDON BOARD IN SESSION

**Many Prisoners Ask for Pardon,
Clemency and Restoration
of Citizenship**

The Board of Pardons held a meeting this morning. A long list of applicants were presented before the board, some asking for pardons, some for clemency and others asking to be restored to citizenship.

Nothing of importance took place at the morning meeting but at the afternoon session four cases were decided.

The case of Chas. B. Treadwell, serving 11 years for robbery, was pardoned. Treadwell's guilt was in doubt from the time of his conviction and his attorney introduced evidence of such a nature as to secure him freedom.

The next case was that of Chas. Knolls, convicted of the murder of Ferrell in Reno. This was the case in which the unwritten law was the pleading at the time of the trial, but he was sentenced to serve 15 months for the killing. He was given a full pardon by the board.

Dan O'Doane, sentenced to 5 years from Washoe county for bigamy was the next application to receive attention from the board. Not enough evidence was introduced to show the board that the applicant deserved the pardon and it was refused.

The last case to come before the board today was that of A. A. Schole, convicted to serve ten years for manslaughter. After a lengthy hearing of the case by the board the pardon was granted.

The board then adjourned until tomorrow morning. It is thought that it will take about four days to com-

plete the hearing of the cases before the board at this session.

Following is the entire list of applications before the Board:

J. G. Bell, assault with deadly weapon, 1 year 6 months; Robert L. Burns, robbery, 20 years; Joseph W. Conroy, burglary, 4 years; Tony Christie, robbery, 15 years; C. H. Davis, burglary, 7 years; A. O. Devitt (escape from jail, 2 years; (Clemency) Charley Amel Dick, burglary, 5 years; William Daly, murder 2nd, degree, life; Tom Fins, housebreaking, 5 years; Patrick Horn, murder 2nd, degree life; Ed. Hoff, robbery, 10 years; Jack Harris, forgery, 1 year; Eugene P. Harris, manslaughter, 10 years; Jos. Hawley, burglary, 3 years; James Harris, burglary, 5 years; Edward Johnson, robbery, 10 years; R. Johnson, whiskey to Indians, 2 years; (Restoration); Chas. Kucks, involuntary manslaughter, 1 year 2 months; Edward S. Kendricks, murder 2nd, degree, life; John C. Logan, forgery, 7 years; W. E. Lamb, burglary, 8 years; Robert Mitchell, burglary, 4 years; Frank McCauley, burglary 7 years; D. O'Doan, bigamy, 5 years; L. J. Phillips, assault intent to kill, 2 years; P. J. Schuman, forgery, 1 year; James Sullivan, housebreaking, 1 year; Edward Spencer, burglary, 1 year 6 months. (Restoration credits) Tim Shea, assault intent to kill, 10 years; Joseph P. Smith, robbery, 10 years; A. A. Schole, manslaughter, 10 years; Chas. B. Treadwell, robbery 11 years; John J. Williams, assault intent to kill, 10 years; J. W. Willard, housebreaking, 1 year 3 months.

Are Now Sacking High-Grade

The following from the Ramsey Recorder concerning the Ramsey-Comstock mine, will be interesting to many people of this city who hold stock in that company:

There have been over 500 sacks of high grade ore taken from the great pay chute at the Ramsey-Comstock mine since the ore body was struck on the third level. Contained in this pile is some as fine ore as ever showed in mine. Pieces glittering with free gold and carrying high values in sulphides as well, are brought up in the skip.

The company is getting together shipments and is bending every effort to get them out as rapidly as possible. All the men that can conveniently be worked in the drift are picking down the picture ore. The returns from it are going to prove a revelation to Nevadans. It is going to be shown that this corner of the state is possessed of a mine that is a first grader in every sense of the term. Nearly a carload is already out and it is the intention to so arrange matters that shipments will follow each other continuously.

When it is known there is a six foot pay chute that has been drifted on nearly 50 feet and which is opened up on two levels, 100 feet apart, it can be seen there is a tremendous tonnage already blocked out, which every foot of drifting increases.

Some specimens are being saved for jewelry. Gold in these places occurs in many seams and of course they will assay into the thousands. In other free gold specimens the yellow metal occurs with tellurium. Like all ore of this character, it will when worn as a pocket piece show more and more gold in the free state the longer it is carried.

The Ramsey Comstock mine has entered an era of long continued productiveness and the management is getting things in readiness for it. All necessary appliances will be added as required and they will make some improvements that will get the great property in condition for record production.

The incline shaft is sunk on the foot wall side. The country rock on this wall is a hard diorite which makes progress with hand drilling rather slow. With the addition of burly drills and air compressor this part of the work will be greatly improved and the installation of a pump will avoid further delay on account of water.

Recent disclosures at the mine have brought a number of visitors to town, including some of the company officials. H. T. Bragdon of Goldfield and president of the company came accompanied by Mr. Hayes of the Hayes-Monnetie lease in Goldfield, Mr. Reynolds and S. M. Carleton, a Denver man, Vice-President A. H. Mayne came in for several days during the week and his brother, C. H. Mayne of Manhattan, arrived to have a look at things.

Outside mining operators are fast coming to a realization of the possibilities in this property and the district in general. The knowledge is constantly growing that Ramsey district has a mine that is sure to come to the front as a big high grade shipper and is in a fair way to eclipse some of the famous southern Nevada mines. There is high grade in the ledge from the apex of the dike 20 feet above ground, to the bottom of the third level and it is richer all the way, as a bonus and no mistake.

VERY LOW

Mrs. John Catten is reported as being very low in this city and few hopes are entertained for her recovery.

RETURNED TO TAHOE

Mrs. Abe Cohn returned to Tahoe City Sunday evening, where she has charge of the Emjorium branch store at that place.

Mr. and Mrs. Jack Fryer and son, who have been visiting relatives in this city for the past week, returned to their home in Sacramento Saturday evening.
